

Petition to Urge CTDOT to Accelerate the Timeline for Traffic Calming on Whitney Ave (State Rte. 707)

We, the undersigned, urge CTDOT to accelerate its timeline for traffic calming and infrastructure improvement on Whitney Ave (State Route 707). The incidence of speeding and accidents, which already make Whitney Ave extremely hazardous, will only worsen next year (2025) when New Haven begins to install traffic calming infrastructure on their stretch of Whitney Ave. Our safety can't wait! We urgently request that planning begin immediately to make Whitney Ave safer for ALL users in alignment with Connecticut's Vision Zero policy and Hamden's own Complete Streets policy.
